Priya Nair
priya.nair@example.com | Bengaluru, India

Summary
ML engineer who ships NLP and LLM features to production.

Skills
Languages: Python, SQL
ML: PyTorch, scikit-learn, Hugging Face Transformers, NLP, LLMs
MLOps and infrastructure: Docker, k8s, MLflow, GCP

Experience
Machine Learning Engineer, Lumen Health - Mar 2022 to Present
- Fine-tuned transformer models for clinical note classification in PyTorch.
- Served models on Kubernetes and tracked experiments with MLflow.
Part-time ML Consultant, Freelance - Jan 2023 to Dec 2023
- Built text classifiers with scikit-learn for two startups.
Data Analyst, Orbit Retail - Jul 2019 to Feb 2022
- Built SQL reports and Python forecasting scripts.

Projects
Note Triage - Routes clinical notes to the right team. Technologies: PyTorch, Hugging Face Transformers, Docker
Docs QA Bot - Answers questions over internal docs with an LLM and retrieval. Technologies: Python, FastAPI, GCP

Education
B.Tech Computer Science, NIT Calicut, 2019
