Aarav Mehta

Backend Software Engineer · Bengaluru, India · aarav.mehta@example.com · +91 98765 43210 · github.com/aarav-dev-example

Summary

Backend engineer with 3.5 years of experience building REST APIs and data services in Python. Comfortable owning features end to end, from schema design to deployment on AWS. Recently built internal LLM tooling with LangChain and the OpenAI API.

Skills

Languages: Python, SQL, JavaScript
Frameworks: Django, Django REST Framework, FastAPI, Flask, Celery
Data: PostgreSQL, MySQL, MongoDB
Cloud & DevOps: AWS (EC2, S3, Lambda, RDS), Docker, GitHub Actions, Linux
AI / LLM: LangChain, OpenAI API, prompt engineering, pandas
Practices: REST API design, unit testing (pytest), Git, Agile/Scrum

Experience

Software Engineer — FinEdge Solutions Pvt. Ltd., Bengaluru ***Jul 2023 – Present***

- Built and maintained 25+ FastAPI and Django REST endpoints for a loan-servicing platform used by 40k monthly users.
- Cut p95 API latency from 820 ms to 310 ms by rewriting ORM queries and adding PostgreSQL indexes.
- Containerised four services with Docker and set up CI/CD pipelines in GitHub Actions deploying to AWS EC2.
- Built an internal document Q&A assistant with LangChain and the OpenAI API, used by the support team.

Junior Python Developer — CodeNest Technologies, Pune ***Apr 2022 – Jun 2023***

- Developed Django admin tools and REST APIs for an e-commerce inventory system.
- Wrote Celery background jobs for nightly order reconciliation, processing about 200k rows per run.
- Raised test coverage from 48% to 81% with pytest and factory-based fixtures.

Projects

ResumeRanker — Flask app that scores resumes against job descriptions using TF-IDF and cosine similarity; deployed on AWS Lambda.

ExpenseBot — Telegram bot for splitting group expenses, built with Python and MongoDB.

Education

B.Tech in Computer Science — Vellore Institute of Technology *2018 – 2022* · CGPA 8.4/10

Certifications

- AWS Certified Cloud Practitioner (2023)
